

HEALTH AND SAFETY

at Esperanza Academy

At Esperanza Academy, your child's health and safety is our priority. Below are the steps that we are proactively taking to keep your child safe while at school:

- Everyone who enters the building will have their temperature checked.

- All staff, students, and visitors will be required to wear masks.

- Esperanza has adopted a staff vaccination policy to protect our school community.

- Staff and students will maintain 3 feet of social distancing in all areas of the building, per CDC guidelines.

- Esperanza maintains a rigorous cleaning/sanitizing schedule in all spaces.

- Students will be given individual bagged lunches at their desks.

- Students will not be permitted to share food or school materials.

- Students will access online learning materials to reduce the exchange of physical materials.
