## CODE OF CONDUCT

2021-2022 Academic Year

This Code of Conduct sets forth the initial policies of the Esperanza Academy Charter School ("Academy") and is applicable to students, faculty and staff, and visitors to the school site.

The founders would note that certain policies contained in this Code of Conduct stem from federal, state, or local laws, regulations, or guidelines, and thus the Academy has little or no flexibility in applying or enforcing these policies. The majority of policies contained in the Code will, however, reflect the founder's vision as to rules and policies necessary to establish an appropriate academic tone, focus, and environment at the Esperanza Academy.

The Code of Conduct will be key to creating an environment conducive to learning at the Academy. In the following pages, the Code clearly defines expectations and school discipline policies, while focusing on character virtues deemed by the Academy's Trustees to be keys to success in school and throughout life. Among these virtues are:

- Responsibility** Thinking before you act and being accountable for your actions. Responsibility emphasizes our positive obligations to care for each other, e.g., *performing a community service project*.
- Perseverance** Doing your best with the talents you have, striving toward a goal and not giving up, e.g., *putting forth one's best effort when taking an exam or doing homework*.
- Respect** Showing regard for the worth and dignity of someone or something, being courteous and polite. Respect takes three major forms: respect for oneself, respect for other people, and respect for all forms of life and the environment, e.g., *practicing acceptable manners in school*.
- Kindness** Being sympathetic, helpful, kind, agreeable and gentle toward people and other living things, e.g., *helping a fellow student who has been injured*.
- Truth** Dealing truthfully with people, being sincere, not deceiving them or stealing from them, not cheating or lying, e.g., *doing one's own work when taking a test or working on an individual assignment*
- Citizenship** Helping to create a society based upon self-governing values including rules of law, equality, logical argument, representation, rights and responsibilities, and democratic decision-making, e.g., *obeying classroom and school rules*.

- Courage**      *Being open to take on new challenges presented by different subject areas. Standing up by what you believe is right, e.g., **not being afraid to make mistakes, reporting bullies.***
- Self-discipline**      *Knowing what needs to be accomplished and not putting it off to the last minute. Learning to prioritize, e.g. **starting a project on-time, arriving on time to school and class every day.***
- Fairness**      *Treating people without prejudice, not playing favorites, being open-minded, and maintaining an objective attitude toward those whose actions and ideas are different from our own, e.g., **treating people the same, regardless of their ethnicity, race, religion, gender, or physical condition.***
- Cooperation/true friendship**      *Being a good neighbor, helping people around us and working together toward goals. Building community takes many forms, including having fun with each other e.g., **being a member of the team in a class or a field, tutoring a student peer.***

The character virtues listed above will be the basis upon which we teach and gauge appropriate conduct. The school's curriculum will support character building through literature assignments and lessons learned from history. Students will be encouraged to model positive character virtues in their every action and thereby to develop personal habits that characterize a civil society.

The founders believe that daily interactions between staff and students provide the best opportunities for encouraging appropriate behavior and promoting the development of good habits. Thus, staff will be expected to interact with students in a positive manner at all times, and to maintain a high ratio of acknowledging good conduct and performance as contrasted to correcting misbehavior or overly focusing on inadequate performance.

One way in which this will be developed is by implementing Restorative Practices into our school culture. Restorative practices are utilized primarily to build and maintain positive relationships among the school community including students, teachers/faculty, administration and parents. The following is a detailed explanation of Restorative Practices:

**Restorative Practices**

A restorative approach can be used as both a prevention and intervention measure. Restorative practices can foster positive relationships and empower community members to take responsibility for the well-being of others; prevent or deal with conflict before it escalates; address underlying factors that lead young people to engage in inappropriate behavior and build resiliency; increase the pro-social skills of those who have harmed others; and provide wrong doers with the opportunity to be accountable to those they have harmed and enable them to repair the harm to the extent possible. When used as an intervention measure, taking a restorative approach to discipline changes the fundamental questions that are asked when a behavioral incident occurs. Instead of asking who is to

blame and how those engaged in the misbehavior will be punished, a restorative approach asks five key questions: 1) What happened? 2) What were you thinking of at the time? 3) What have you thought about since? 4) Who has been affected by what you have done? In what way? 5) What do you think you need to do to make things right?

Types of Restorative Practices

- **Informal practices:** This would include the use of *affective statements*, *affective questions*, and *small impromptu conferences*. *Affective statements*—This is where an individual corrects behavior by explaining how such behavior affect them. For example, “When you speak while others are speaking, I become frustrated because I cannot continue my lesson.” *Affective questions*—promotes natural consequences and a change in thinking. For example, what impact has this situation had on you and others? *Small impromptu conferences*—these are quick meetings where the restorative and/or affective questions can be asked of individuals involved in a conflict. The aim is to get each individual to explain their side, what they were thinking and how the matter can be resolved.
- **Circles:** Circles are effective as both a prevention and intervention strategy. Circles may be used as a regular practice in which a group of students (or faculty or students and faculty) participates. A circle can also be used in response to a particular issue that affects the community. The circle process can enable a group to build relationships and establish understanding and trust, create a sense of community, learn how to make decisions together, develop agreements for the mutual good, resolve difficult issues, etc.
- **Formal Conferences:** There are two basic types of formal conferences—restorative conferencing and family group decision making (FGDM). Restorative conferences are formal responses to wrongdoing where all those involved and affected by an incident come together with a trained facilitator to explore what happened, who was affected and what needs to be done to make things right. This often includes the friends and family members of those who were wronged as well as those who did the wrong. The purpose of the conference is for both parties to understand each other’s perspective and come to a mutual agreement which will repair the harm as much as it is able to be repaired. FGDM is an event where decisions need to be made about a young person. These meetings are characterized by a high level of family involvement and often include extended family and friends. The crucial component of this type of meeting is the “family alone time” where the facilitator leaves the room and the family and young person work out a plan together.

**I. SCOPE OF CODE OF CONDUCT**

*This Code of Conduct shall apply to any conduct:*

- ◆ On school grounds at any time;

- ◆ On or off school grounds at any school activity, function or event;
- ◆ Traveling to and from school, including actions on any school bus, van or public transportation;
- ◆ **Away from school if it is a continuation, retaliation or initiation of any event or individual related to school.**
- ◆ **Off-campus behavior if such behavior causes a substantial disruption to the school's environment or operations.**
- ◆ **Distance learning, flipped classrooms and/or other modes of virtual education**

## II. DEFINITIONS

*The following definitions apply to the Code of Conduct:*

- Student:** a person, adult or minor, enrolled in the Esperanza Academy Charter School.
- Parent/Guardian:** the official caregiver of a minor child, including but not limited to mother, father, stepparent, grandparent, or court-appointed guardian, including DHS workers and/or group home employees as identified at time of admission or amended in writing thereafter; or an emancipated minor (proof of which is required).
- Staff:** Any person employed by or volunteering at Esperanza Academy Charter School

## III. EXPECTATIONS OF STUDENTS

The Esperanza Academy Charter School will provide our students with skills that they need for the future. The teachers, counselors, administrators and staff members at the Academy are dedicated to the education and well-being of our students. The Academy *expects and requires* all students to show *respect* for the staff, volunteers, visitors, the building, each other, and people of all cultures represented in the school. Academy students are expected to be motivated, serious, and to come to school each day prepared to learn, work hard and interact with adults and other students cooperatively.

***Be Prepared – Education requires certain tools.***

**All students must come to school each day prepared to learn and work whether on site in the school building or participating in remote learning. The expectation is that all students regardless of the mode of educational delivery complete all assignments in order to make adequate progress. Student preparedness is evidenced by:**

1. A well-organized notebook
2. Pencils, pens, and paper
3. Having and maintaining all textbooks being used in her/his classes
4. Specific subject area supplies (i.e., for geometry such supplies would include a protractor, compass, etc.)

5. Maintaining school issued technology (i.e. Chromebooks, tablets) that is charged and ready to be used for educational purposes.

### ***Help Keep Our Building Clean, Beautiful and a Learning Environment***

Students are expected to cooperate in maintaining a clean, attractive, and healthy learning/teaching environment. The following are guidelines for behavior inside the Academy and on its grounds:

Electronic Devices- personal electronic devices should be left home. The term electronic devices may include and is not limited to the following: cell phones, smart watches, Nintendo Switches, iPods, iPads/tablets, large headphones/earbuds, speakers, electronic readers, and other electronic devices. Should the need arise to bring a personal electronic device, the following must be adhered to:

- Upon entering the building, the device must be turned off and in the student’s locker. **In the event that lockers are not available, students will submit their electronic devices to the homeroom/1st period teacher upon arrival and will retrieve them at the end of the school day.**
- Students who are late to homeroom/1st period are responsible to place their cellphones in their locker prior to entering the classroom.
- If the device is found to be on, in use or within the student’s possession during the school day, the electronic device will be confiscated every time and held to the following consequences:
  - First Offense: he parent will be notified and the student will serve an after school detention.
  - Second Offense: The parent or guardian must come in personally to claim the device. Before the device will be returned, the student must successfully serve another after school detention. In addition, both student and parent will sign a contract which indicates that if the device is confiscated a third time it will be returned at the end of the school year.
  - Third Offense: The confiscated electronic device will remain in a LOCKED compartment and returned at the end of the school year. This “three strikes” standard applies to the accumulation of infractions for the same item and/or a combination of items considered electronic devices. Should a student refuse to turn over the device upon the request of an administrator, the student may be subject to a suspension for noncompliance.

- Students must adhere to the guidelines delineated in the Technology Resource Student Handbook concerning school issued technology.

#### Food and Drink

- Students are not permitted to bring in glass bottles into the building for safety reasons. Students bringing food/beverages into the building must have food items closed and/or wrapped. All beverages brought into the building must be sealed or **should be consumed/discarded prior to entering the building.**
- Students are not permitted to order food to have it delivered to EA. A parent may bring food in for his/her child. This needs to be brought in before the student’s lunch period, for the student to have ample time to eat. Students will not be given an extension of time to eat food that is brought in well into their lunch period.

A Building committee will be formed each year to help ensure that the facility is safe and clean. The members of the committee will work with the facility and maintenance staff throughout the school year to ensure that the building is maintained.

### STUDENT ATTENDANCE POLICY

State law requires all children of schooling age to be enrolled in school (“compulsory education”), and state law requires the Academy to report any incidences of truancy (i.e. three or more days of unexcused absence). In addition, Esperanza Academy places a high value on student attendance. Regular school attendance is a primary factor in a student’s successful academic and social development and lays the groundwork for a successful and productive life beyond school. Frequent absences of pupils from regular classroom learning experiences disrupt the continuity of the instructional process. The benefit of regular classroom instruction is lost and cannot be entirely regained, even by extra after-school instruction. Consequently, many pupils who miss school frequently experience great difficulty in achieving the maximum benefits of schooling. Students are required to make-up their work within one week of returning from an authorized trip. In case of an absence:

- A parent/guardian is expected to call the school before 8:30 a.m. on the day of the absence, and a written or electronic absence note explaining the cause for the absence is required on the day of return. Failure to provide these notices will result in the absence being recorded as “unexcused”.
- A student absent from school **may not** participate in any after school activity on the day they were absent.
- A student missing 10 or more class days from a semester-long course (or 20 days from a year-long course) may receive a failing grade for excessive absences. Students who have excessive absences may temporarily receive a grade of NG (no grade) until they are in compliance with the guidelines established in their individual Truancy Elimination/School Attendance Improvement Plans.

- Students with 20 or more unexcused absences from school will not be permitted to attend summer school.

### **Compulsory School Attendance Requirements**

All students of compulsory school age who attend the charter school shall be subject to the compulsory school attendance requirements.

A student shall be considered in attendance if present at any place where school is in session by authority of the Board; the student is receiving approved tutorial instruction, or health or therapeutic services; the student is engaged in an approved and properly supervised independent study, work-related study or career education program; or the student is receiving approved homebound instruction.

The following students shall be excused from the requirements of attendance at schools, upon request and with the required approval:

- On certification by a physician or submission of other satisfactory evidence and on approval of the Department of Education, children who are unable to attend school or apply themselves to study for mental, physical or other reasons that preclude regular attendance.
- Students sixteen (16) years of age regularly employed during the school session and holding a lawfully issued employment certificate.
- Excused/Lawful Absence

For purposes of this policy, the following conditions or situations constitute reasonable cause for absence from school:

  - a. The parent/guardian submits a written request for excusal prior to the absence.

  - c. The adult directing and supervising the tour or trip is acceptable to the parents/guardians and the Chief Executive Officer.
  - d. College or postsecondary institution visit, with prior approval.

The charter school may limit the number and duration of non-school-sponsored educational tours or trips and college or postsecondary institution visits for which excused absences may be granted to a student during the school year.

*Temporary Excusals -*

The following students may be temporarily excused from the requirements of attendance at school:

- Students receiving tutorial instruction in a field not offered in the charter school's curricula from a properly qualified tutor approved by the Chief Executive Officer, when the excusal does not interfere with the student's regular program of studies.
- Students participating in a religious instruction program, if the following conditions are met:
  - a. The parent/guardian submits a written request for excusal. The request shall identify and describe the instruction, and the dates and hours of instruction.
  - b. The student shall not miss more than thirty-six (36) hours per school year in order to attend classes for religious instruction.
  - c. Following each absence, the parent/guardian shall submit a statement attesting that the student attended the instruction, and the dates and hours of attendance.
- School age children unable to attend school upon recommendation of the school physician and a psychiatrist or school psychologist, or both, and with approval of the Secretary of Education.

*Parental Notice of Absence -*

**Absences shall be treated as unlawful until the charter school receives a written excuse, phone call, text message or email explaining the absence, to be submitted within three (3) days of the absence.**

*Unexcused/Unlawful Absence*

*Enforcement of Compulsory Attendance Requirements*

*Student is Truant -*

When a student has been absent for three (3) days during the current school year without a lawful excuse, charter school staff shall provide notice to the person in parental relation who resides in the same household as the student within ten (10) school days of the student's third unexcused absence.

The notice shall:

- Be in the mode and language of communication preferred by the person in parental relation;
- Include a description of the consequences if the student becomes habitually truant; and
- When transmitted to a person who is not the biological or adoptive parent, also be provided to the child's biological or adoptive parent, if the parent's mailing address is on file with the school and the parent is not precluded from receiving the information by court order.
- The notice may include the offer of a Student Attendance Improvement Plan.

If the student incurs additional unexcused absences after issuance of the notice a Student Attendance Improvement Conference will be required.

*School Attendance Improvement Conference -*

Charter school staff shall notify the person in parental relation in writing and by telephone of the date and time of the School Attendance Improvement Conference.

The purpose of the School Attendance Improvement Conference is to examine the student's absences and reasons for the absences in an effort to improve attendance with or without additional services.

The following individuals shall be invited to the School Attendance Improvement Plan Conference:

- The student;
- The student's person in parental relation;
- Other individuals identified by the person in parental relation who may be a resource;
- Appropriate school personnel;
- Recommended service providers;

After three attempts to schedule the Student Attendance Improvement Conference, the conference shall occur without the person in parental relation.

The outcome of the Student Attendance Improvement Plan Conference shall be documented in a written School Attendance Improvement Plan. The Plan shall be retained in the student's file. A copy of the Plan shall be provided to the person in parental relation, the student and appropriate charter school staff.

The charter school may not take further legal action to address unexcused absences until after the date of the scheduled Truancy Elimination/ Student Attendance Improvement Plan Conference has passed.

*Student is Habitually Truant -*

When a student under fifteen (15) years of age is habitually truant, charter school staff:

Shall refer the student to:

- A school-based or community-based attendance improvement program; or
- The local children and youth agency.
- May notify the school district of residence to file a citation in the office of the appropriate judge against the person in parental relation who resides in the same household as the student.

When a student fifteen (15) years of age or older is habitually truant, charter school staff shall:

- Refer the student to a school-based or community-based attendance improvement program; or
- May notify the school district of residence to file a citation in the office of the appropriate judge against the student or the person in parental relation who resides in the same household as the student.

Charter school staff may refer a student who is fifteen (15) years of age or older to the local children and youth agency, if the student continues to incur additional unexcused absences after being referred to a school-based or community-based attendance improvement program, or if the student refuses to participate in such program.

Regardless of age, when charter school staff refer a habitually truant student to the local children and youth agency or file a citation with the appropriate judge, charter school staff shall provide verification that the school held a School Attendance Improvement Conference.

*Filing a Citation -*

A citation shall be filed in the office of the appropriate judge whose jurisdiction includes the school in which the student is or should be enrolled.

Additional citations for subsequent violations of the compulsory school attendance requirements may only be filed against a student or person in parental relation in accordance with the specific provisions of the law.

*Special Needs and Accommodations*

If a truant or habitually truant student may qualify as a student with a disability, and require special education services or accommodations, the Director of Special Education shall be notified and shall take action to address the student’s needs in accordance with applicable law, regulations and Board policy.

For students with disabilities who are truant or habitually truant, the appropriate team shall be notified and shall address the student’s needs in accordance with applicable law, regulations and Board policy.

*Discipline*

The charter school shall not expel or impose out-of-school suspension, disciplinary reassignment or transfer for truant behavior.

In addition, it is expected that students arrive at school on time, in full uniform (including ID and lanyard), prepared for the school day. Excessive lateness also impacts students negatively and therefore will result in consequences. These consequences are outlined in section VIII, Level Two offenses, letter K. ***When a student***

*arrives at school late after 8:30 AM, parent notification via telephone, a written excuse, or brief conference is required.*

## LOCKERS

All lockers are assigned at the discretion of the Director of Student Development for the convenience of each student and remain the property of the Academy. All students who receive permission to use a locker must sign and agree to a contract stating the terms and conditions for locker use. Students are to only use the locker assigned to them. Sharing lockers is not permitted. As the school reserves the right to inspect lockers, students must open them upon request. **When deemed necessary, lockers may also be opened and searched by administration and/or School Climate Officers with or without student consent.**

**B. ACT 26**

Act 26 of 1995 (the Safe Schools Act) – Creates a mandatory one-year expulsion for the possession of weapons on school property, including buses and school-sponsored events. It requires parents to provide a sworn statement upon registering their child in school as to whether the child had previously been suspended or expelled from another school. Act 26 also requires schools to maintain records on acts of violence and weapon possession and to forward student discipline records when a student transfers to another school.

Act 26 defines the term weapon to, **“including but not limited to, any knife, cutting instrument, cutting tool, nunchaku, firearm, shotgun, rifle, and any other tool, instrument or implement capable of inflicting serious bodily injury.”** The law requires action for documented cases of weapon possession in school or while traveling to and from any school or school program, including public transportation.

A student found in possession of a weapon will be considered in violation of the Code of Student Conduct, and the incident will be considered a Level III offense. Schools are to follow the following steps:

1. The student must be detained
2. The police must be contacted
3. The student must be arrested
4. The student must be suspended
5. A serious incident report must be filed
6. An EH-21 must be submitted recommending expulsion

**C. ACT 110**

Act 110 of 2020 Mandates that a student who is convicted of sexual assault upon another student enrolled in this Charter School shall be required to notify the Chief Executive Officer or designee of the conviction no later than seventy-two (72) hours after the conviction. If the convicted or adjudicated student has already been expelled, or if the victim does not attend the same school, no additional action regarding expulsion, transfer, or reassignment is required by the Charter School. Although action is not required, the Charter School maintains the authority to make an alternative assignment or provide alternative educational services during or after an expulsion at the discretion of the Chief Executive Officer or designee. Upon report of a conviction or adjudication of sexual assault upon a Charter School student that occurred in the school setting, the Chief Executive Officer or designee shall notify the Title IX Coordinator to determine whether the incident has been addressed in accordance with applicable Board policy. The Charter School shall ensure that the convicted or adjudicated student is prohibited from taking part in the following activities at the same time as the victim:

1. Being educated in the same school building

2. Being transported on the same vehicle; the Charter School shall coordinate with the students' school district of residence if transportation is provided through the school district.
3. Participating in the same school-sponsored activity.

The Charter School may return the student who is expelled, transferred, or reassigned to the student's originally assigned school if one (1) of the following circumstances occur:

2. The conviction or adjudication has been reversed and is not pending appeal.

#### **D. Conduct of Friends and/or Family**

Students should advise friends and family that disorderly conduct obscene or offensive language and displays, or threatening behavior may result in disciplinary action against a student. In addition, the intentional misuse of technology and/or social media by friends and/or family to threaten, bully, or cause a disruption to the learning environment may result in disciplinary consequences.

#### **E. Students requesting administrative support**

Any student may request permission from their teacher or supervising adult to leave class and report immediately to the appropriate office to make an appointment to meet with the Director of Instruction, Director of Student Development, Department Chairperson, School Counselor, Operations Manager or Support Services to discuss a problem, prevent a problem, or explain a behavior.

#### **F. Teacher/Parent Communication**

If you have a suggestion, concern or complaint regarding a grade, an assignment or disciplinary actions taken by a teacher, please first contact that teacher directly. Teachers are very willing to listen to your questions and concerns and would like to work with you. Out of courtesy for the teaching staff, please address your questions and concerns with them first rather than immediately going to the administration.

If, however, you do not feel that your question or concern has been correctly addressed, then please contact the appropriate Department Head or Team Leader. If after speaking to the Department Head or Team Leader, you are still not satisfied, you may contact the Director of Instruction. In the case of a disciplinary issue, please contact the Director of Student Development if not satisfied with the result after speaking with the teacher.

If the administration is unable to resolve a single issue with a parent, the administration and/or parent will refer the issue to the CEO for resolution. If after meeting with the CEO the situation continues to be unresolved, the CEO will refer the issue to the Governing Board for resolution.

## G. Special Programs, Events and Graduation

Students should note that special programs and events including assemblies/showcases, field trips, dances, proms, and even graduation are privileges, not rights. Participation in special programs and events is subject to the discretion of administration upon considering a student's academic performance and conduct.

- Seniors who have two or more Fs may not participate in graduation exercises.
- Seniors may participate in graduation if they have 1 F or did not pass the Keystone Exams, however their diploma will be held until these requirements are met.

## V. ZERO TOLERANCE POLICY

Esperanza Academy reserves the right to hold a “zero tolerance” stance with regard to particular discipline issues, which affect the safety and well-being of members of the school community and the condition of the school building. This policy mandates pre-determined consequences for specific offenses, regardless of the circumstances surrounding any specific event or the disciplinary history of any student involved. Incidents of assault and/or fighting, possession of weapons or dangerous weapons/objects, possession, or use of drugs or alcohol in school, on school property, or during school sponsored events, and property damage, will not be tolerated. In the event that one of the above actions has occurred, the following *may* be implemented effective immediately.

1. Any Academy student determined by the building administrator or the administrator's designee to be involved in one of the actions affected by this policy will be immediately suspended for 10 days out of school. Also, any student involved in one of the above actions, which violates state or federal law, will be referred to the local law enforcement agency and, if deemed necessary by said authority, arrests will be made.
2. Esperanza Academy will comply with all due process measures for students with disabilities who are found to be in violation of a zero tolerance policy. This would include holding a manifestation determination (MD) meeting prior to recommending a student for expulsion. Should the offense not be a manifestation of a specific disability, the student will be recommended for expulsion.
3. Expulsion of students will be considered at a disciplinary hearing of the Esperanza Academy Board of Trustees
4. Board members will vote on the case as it has been heard, and the outcome of said vote will be final, subject to appeal to the Court of Common Pleas, Philadelphia County (See Section X – Expulsion).

- (1) Substantially interfering with a student’s education,
- (2) Creating a threatening environment; or
- (3) Substantially disrupting the orderly operation of the school

“School Setting” shall mean in the school, on school grounds, in school vehicles, or during any activity sponsored, supervised or sanctioned by the school.

Bullying is characterized by and must include all three of the following criteria:

- (1) It is aggressive behavior or intentional harm doing.
- (2) It is behavior that is carried out repeatedly over time.
- (3) It is behavior by a person or persons with more physical or social power toward a less powerful person.

Acts of bullying may include, but are not limited to:

- Making statements or sending mean, threatening, or inappropriate text messages, chat messages, emails, or other electronic communications.
- Starting or continuing a rumor in person or by email or posted on a social network.
- Sending or resending (reposting, liking, retweeting, etc.) embarrassing pictures or videos.
- Creating fake social media/internet profiles or websites.
- Hacking another student’s email along with other school issued programs.

**Section 3. Authority**

Esperanza Academy Charter School encourages students or parents/guardians of students who have been bullied or witness bullying to immediately report such incidents to the Director of Student Development, school counselor, or to any other member of the school staff. Any staff member who receives such a report shall immediately notify the Director of Student Development. Students or parents/guardians also have the right to report the incident to the School District of Philadelphia’s Bully Hotline at 215-400-SAFE.

Esperanza Academy Charter School directs that complaints of bullying shall be investigated promptly and thoroughly, and corrective action shall be taken when allegations can be confirmed. Confidentiality of all parties shall be maintained, consistent with the school’s legal and investigative obligations. All parties will be treated with dignity and due process. No penalty or retaliation shall occur as a result of good faith reports of bullying.

**Section 4. Guidelines**

This policy shall be accessible in every classroom, and posted in a prominent location within each school building and posted on the school’s web site. This policy shall be reviewed with every student annually at the beginning of each school year during grade level assemblies.

**Section 5. Consequences for Violations**

If the allegations of bullying are confirmed, the Director of Student Development or designee(s) shall:

1. Inform the student(s) found to have violated this policy and his/her parents/guardians of the results of the investigation, including the actions of the student and the consequences for his/her actions.
2. Review the definition of bullying and the school’s policy on bullying with the students(s) and his/her parents/guardians.
3. Administer the consequences for the behavior relative to the number of offenses and the severity of the behavior. A student who violates this policy shall be subject to appropriate disciplinary action consistent with the Code of Conduct, which shall include:
  - a. First Offense—parent/guardian conference, loss of school privileges, exclusion from school sponsored activities (including participation in sports teams), detention, and/or in-school suspension.

### **VII. Esperanza Academy Final Student Warning Policy**

A student may be issued a written and verbal Final Warning under certain circumstances. The purpose of the warning will be to alert the student and their parent/guardian that he has seriously or chronically violated the school’s Code of Conduct. It is intended that the final warning will send the message to the student that his behavior has chronically or excessively violated the behavioral expectations of the school, and that future violations will not be tolerated. It is further intended that the student will realize the impact his behavior has had on his learning and that of his fellow students, and therefore make all necessary changes in his behavior while in school.

The need to issue a final warning will be determined by the building administrator or the administrator’s designee (Director of Student Development). When issued, the warning will be conducted in the following manner:

1. The administrator/designee will conduct a meeting with the student and the student’s parent/guardian, along with one other staff member as a witness. At the meeting, the reason(s) for the warning will be enumerated. The student will be given the opportunity to respond, either verbally or in writing.
2. The administrator/designee will review with the student the written warning, which states the student understands:
  - a. this is his final warning from EA
  - b. any further infraction, will be considered a violation of the warning and of the Code of Conduct
  - c. **that the immediate consequence for any infraction will be an immediate 10-day suspension and recommendation for expulsion. The student will be required to attend the next available Disciplinary Review Hearing**
  - d. should the student be recommended for expulsion, the student and parent will have a pre-expulsion meeting with the Director of Instruction that will outline the process moving forward.
3. The student and parent/guardian will be asked to sign the warning as an indication that the warning was issued. **Should either individual refuse to sign the document, it will be noted as such, in the presence of the staff witness. The student will be informed that the warning will remain in**

**effect and will be enforced even if the signatures of the student or the parent/guardian are missing.**

Once the warning has been issued, the Director of Student Development will monitor the student's behavior closely. Should the decision be made to act on the warning (due to continued violations of the Code of Conduct), the Director of Student Development will follow the procedure as described above, following all established guidelines for the suspension/recommendation for expulsion.

4. The Academy may notify the Philadelphia Police Department or other appropriate authority.
5. If conduct merits an exclusion from School as defined by the Code of Conduct, the exclusion from School may take the form of suspension or expulsion.

*Internal school disciplinary actions shall not in any way deprive the Academy from pursuing any legal remedies available in the Criminal or Delinquency Courts of the Commonwealth.*

## **IX. SUSPENSION**

Suspension is exclusion from school for a period of from one (1) to ten (10) consecutive school days:

- (i) Suspensions may be given by the CEO/Director of Instruction or his/her designee;
- (ii) A student may not be suspended until the student has been informed of the reasons for the suspension and given an opportunity to respond. Prior notice of the intended suspension need not be given when it is clear that the health, safety or welfare of the school community is threatened.
- (iii) The parents or guardians shall be notified immediately in writing when the student is suspended.
- (iv) When the suspension exceeds three (3) school days, the student and parent shall be given the opportunity for an informal hearing consistent with the requirements of the Pennsylvania Code.
- (v) Suspensions may not be made to run consecutively beyond the ten (10) school day period.
- (vi) Students shall have the responsibility to make up exams and work missed while being disciplined by suspension and shall be permitted to complete these assignments within guidelines established by the Board of Trustees ("Board").

A student may be suspended "In-School" or "Out of School."

If a student has issued an out-of-school suspension, he/she will be prohibited from attending school, being on school grounds or participating in or attending school activities until a parent/guardian attends a reinstatement meeting. The student, along with a parent/guardian must both attend a reinstatement meeting. After the school notifies the parent/guardian of suspension and schedules an appointment, the parent/guardian of the suspended student must appear at the time of reinstatement. Reinstatement occurs on the first day of school after the suspension is completed. In addition, a contract outlining future student expectations must be signed.

Students are required to make-up all class work and tests missed during a suspension. This will, in all likelihood, require make-up work after-school or on weekends. The time period to make-up all missed work may not exceed one (1) week from the date of reinstatement, unless otherwise approved by the Director of Student Development or Director of Instruction in writing.

## **X. EXPULSION**

The Chief Executive Officer will have final authority in recommending the expulsion of a student to the Board. If a student withdraws from the school before suspension or expulsion action, the student may be permitted to reapply to the school for admission subject to available space, lottery timelines and waiting list. A student who

is under potential expulsion for the possession or use of a weapon on school property, at a school sponsored event or to and from school, will not be permitted to withdraw prior to an expulsion hearing.

Expulsion is an exclusion from school by the Board for a period exceeding ten (10) school days and may be permanent expulsion from the school rolls. Expulsions require a prior formal hearing pursuant to the Pennsylvania Code:

- (i) During the period prior to the hearing and decision of the Board in an expulsion case, the student shall be placed in his/her normal class except as set forth in subsection (ii).
- (ii) If it is determined after an informal hearing that a student's presence in his/her normal class would constitute a threat to the health, safety or welfare of others and it is not possible to hold a formal hearing within the period of a suspension, the student may be excluded from school for more than ten (10) school days. A student may not be excluded from school for longer than fifteen (15) school days without a formal hearing unless mutually agreed upon by both parties. Any student so excluded shall be provided with alternative education, which may include home study.
- (iii) Students who are under 17 years of age are still subject to the compulsory school attendance law even though expelled and shall be provided an education.

The initial responsibility for providing the required education rests with the student's parents or guardian, through placement in another school, tutorial or correspondence study, or another educational program approved by the district's superintendent.

Within thirty (30) days of action by the Board, the parents or guardians shall submit to Charter School written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. If the parents or guardians are unable to provide the required education, Charter School, within the (10) days of receipt of the notification, make provision for the student's education. A student with a disability shall be provided educational services as required by the Individuals with Disabilities Education Act 2004.

If the approved educational program is not complied with, Charter School may take action in accordance with 42 Pa.C.S. Chapter 63 (relating to the Juvenile Act) to ensure that the child will receive a proper education. See Pennsylvania Code § 12.1(b) (relating to free education and attendance).

An exclusion may also take the form of exclusion from classes or in-school suspension. A student may not receive an in-school suspension unless the student has been informed of the reasons for the suspension and has been given an opportunity to respond before the suspension becomes effective. Communication to the parents or guardian shall follow the suspension action. When the in-school suspension exceeds ten (10) consecutive school days, an informal hearing with the CEO/Director of Instruction or his/her designee shall be offered to the student and the student's parent or guardian prior to the eleventh (11th) school day in accordance with the procedures in the Pennsylvania Code. The charter school has the responsibility to make provision for the student's education during the period of the in-school suspension.

## Hearings

(a) General: Education is a statutory right, and students shall be afforded due process if they are to be excluded from school. In a case involving a possible expulsion, the student is entitled to a formal hearing.

(b) Formal hearings. A formal hearing is required in all expulsion actions. The hearing may be held before the Board or an authorized committee of the Board, or a qualified hearing examiner appointed by the Board. When a committee of the Board or a hearing examiner conducts the hearing, a majority vote of the entire Board is required to expel a student. The following due process requirements shall be observed with regard to the formal hearing:

(1) Notification of the charges shall be sent to the student's parents or guardians by certified mail.

(2) At least three (3) days' notice of the time and place of the hearing shall be given. A copy of the expulsion policy, notice that legal counsel may represent the student and hearing procedures shall be included with the hearing notice. A student may request the rescheduling of the hearing when the student demonstrates good cause for an extension.

(3) The hearing shall be held in private unless the student or parent requests a public hearing.

(4) The student may be represented by counsel, at the expense of the parents or guardians, and may have a parent or guardian attend the hearing.

(5) The student has the right to be presented with the names of witnesses against the student, and copies of the statements and affidavits of those witnesses.

(6) The student has the right to request that the witnesses appear in person and answer questions or be cross-examined.

(7) The student has the right to testify and present witnesses on his/her own behalf.

(8) A written or audio record shall be kept of the hearing. The student is entitled, at the student's expense, to a copy. A copy shall be provided at no cost to a student who is indigent.

(9) The proceeding shall be held within fifteen (15) school days of the notification of charges, unless mutually agreed to by both parties. A hearing may be delayed for any of the following reasons, in which case the hearing shall be held as soon as reasonably possible:

(i) Laboratory reports are needed from law enforcement agencies.

(ii) Evaluations or other court or administrative proceedings are pending due to a student invoking his/her rights under the Individuals with Disabilities Education Act 2004 (20 U.S.C.A. § § 1400—1482).

(iii) In cases in juvenile or criminal court involving sexual assault or serious bodily injury, delay is necessary due to the condition or best interests of the victim.

(10) Notice of a right to appeal the results of the hearing shall be provided to the student with the expulsion decision.

(c) Informal hearings. The purpose of the informal hearing is to enable the student to meet with the appropriate school official to explain the circumstances surrounding the event for which the student is being suspended or to show why the student should not be suspended.

(1) The informal hearing is held to bring forth all relevant information regarding the event for which the student may be suspended and for students, their parents or guardians and school officials to discuss ways by which future offenses might be avoided.

- (2) The following due process requirements shall be observed in regard to the informal hearing:
  - (i) Notification of the reasons for the suspension shall be given in writing to the parents or guardians and to the student.
  - (ii) Sufficient notice of the time and place of the informal hearing shall be given.
  - (iii) A student has the right to question any witnesses present at the hearing.
  - (iv) A student has the right to speak and produce witnesses on his/her own behalf.

Charter School shall offer to hold the informal hearing within the first five (5) days of the suspension.

If the Board of Trustees decides to expel the student from school, the student/parent or guardian can appeal this decision to the Court of Common Pleas, Philadelphia County.

**XI. DISCIPLINE AND STUDENTS WITH DISABILITIES**

There are special rules in Pennsylvania for excluding children with disabilities for disciplinary reasons as set forth in Chapter 711 of Title 22 of the Pennsylvania Code as well as the Procedural Safeguards Notice available through PaTTAN. The Board of Trustees directs compliance with these requirements and directs the Chief Executive Officer/Director of Instruction or his/her designee to implement procedures necessary to effectuate the following:

**A. Authority of School Personnel (34 CFR §300.530)**

Case-by-case determination  
School personnel may consider any unique circumstances on a case-by-case basis, when determining whether a change of placement, made in accordance with the following requirements related to discipline, is appropriate for a child with a disability who violates a school code of student conduct.

**B. General**

To the extent that they also take such action for children without disabilities, school personnel may, for not more than 10 consecutive school days, remove a child with a disability (other than a child with mental retardation) who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension. School personnel may also impose additional removals of the child of not more than 10 consecutive school days in that same school year for separate incidents of misconduct, as long as those removals do not constitute a change of placement (see Change of Placement Because of Disciplinary Removals for the definition, below) or exceed 15 cumulative school days in a school year. Once a child with a disability has been removed from his or her current placement for a total of 10 school days in the same school year, Charter School must, during any subsequent days of removal in that school year, provide services to the extent required below under the sub-heading Services.

**C. Additional authority**

If the behavior that violated the student code of conduct was not a manifestation of the child’s disability (see Manifestation determination, below) and the disciplinary change of placement would exceed 10 consecutive school days, school personnel may apply the disciplinary procedures to that child with a disability in the same manner and for the same duration as it would to children without disabilities, except that the school must provide services to that child as described below under Services. The child’s IEP Team determines the interim alternative educational setting for such services. Under PA special education regulations, a disciplinary exclusion of a student with a disability for more than 15 cumulative school days in a school year will be considered a pattern so as to be deemed a change in educational placement (explained under Change of Placement Because of Disciplinary Removals). The Charter School is required to issue a NOREP/Prior Written Notice to parents prior to a removal that constitutes a change in placement (removal for more than 10 consecutive days or 15 cumulative days).

**D. Services**

The services that must be provided to a child with a disability who has been removed from the child’s current placement may be provided in an interim alternative educational setting. A charter school is only required to provide services to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who has been similarly removed. Students may have the responsibility to make up exams and work missed while being disciplined by suspension and may be permitted to complete these assignments within guidelines established by their charter school.

A child with a disability who is removed from the child’s current placement for more than 10 consecutive school days must:

1. Continue to receive educational services, so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP; and
2. Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not happen again.

After a child with a disability has been removed from his or her current placement for 10 school days during one school year, or if current removal is for 10 consecutive school days or less, and if the removal is not a change of placement (see definition below), then school personnel, in consultation with at least one of the child’s teachers, determine the extent to which services are needed to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child’s IEP.

If the removal is a change of placement (see definition below), the child's IEP Team determines the appropriate services to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

#### **E. Manifestation determination**

Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct (except for a removal that does not constitute a change in educational placement i.e., is for 10 consecutive school days or less and not a change of placement), Charter School, the parent, and relevant members of the IEP Team (as determined by the parent and Charter School) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine:

- If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- If the conduct in question was the direct result of Charter School's failure to implement the child's IEP.
- If Charter School, the parent, and relevant members of the child's IEP Team determine that either of those conditions were met, the conduct must be determined to be a manifestation of the child's disability.
- If Charter School, the parent, and relevant members of the child's IEP Team determine that the conduct in question was the direct result of Charter School's failure to implement the IEP, Charter School must take immediate action to remedy those deficiencies.

Determination that behavior was a manifestation of the child's disability: If Charter School, the parent, and relevant members of the IEP Team determine that the conduct was a manifestation of the child's disability, the IEP Team must either:

1. Conduct a functional behavioral assessment, unless Charter School had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or
2. If a behavioral intervention plan has already been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior.

Except as described below under the sub-heading Special circumstances, the Charter School must return the child to the placement from which the child was removed, unless the parent and Charter School agree to a change of placement as part of the modification of the behavioral intervention plan.

#### **F. Special Circumstances**

Whether or not the behavior was a manifestation of the child’s disability, school personnel may remove a student to an interim alternative educational setting (determined by the child’s IEP Team) for up to 45 school days, if the child:

Carries a weapon (see the Definitions below) to school or has a weapon at school, on school premises, or at a school function under the jurisdiction of Charter School;

1. Knowingly has or uses illegal drugs (see the Definitions below), or sells or solicits the sale of a controlled substance, (see the Definitions below), while at school, on school premises, or at a school function under the jurisdiction of Charter School; or
2. Has inflicted serious bodily injury (see the Definitions below) upon another person while at school, on school premises, or at a school function under the jurisdiction of the State Educational Agency or a charter school.
3. Definitions
  - (a) Controlled substance means a drug or other substance identified under schedules I, II, III, IV, or V in section 202 (c) of the Controlled Substances Act (21 U.S.C. 812(c)).
  - (b) Illegal drug means a controlled substance; but does not include a controlled substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.
  - (c) Serious bodily injury has the meaning given the term “serious bodily injury” under paragraph (3) of subsection (h) of section 1365 of title 18, United States Code.
  - (d) Weapon has the meaning given the term “dangerous weapon” under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code.

**G. Notification**

On the date it makes the decision to make a removal that is a change of placement of the child because of a violation of a code of student conduct, Charter School must notify the parents of that decision, and provide the parents with a procedural safeguards notice.

**H. Change of Placement Because of Disciplinary Removals**

A removal of a child with a disability from the child’s current educational placement is a change of placement requiring a NOREP/prior written notice if:

- The removal is for more than 10 consecutive school days; or

- The removal is for 15 cumulative school days total in any one school year;
- The child has been subjected to a series of removals that constitute a pattern because:
- The series of removals total more than 10 school days in a school year;
- The child’s behavior is substantially similar to the child’s behavior in previous incidents that resulted in a series of removals;
- Of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another; and
- Whether a pattern of removals constitutes a change of placement is determined on a case-by-case basis by Charter School and, if challenged, is subject to review through due process and judicial proceedings.

**I. Determination of Setting**

The IEP team must determine the interim alternative educational setting for removals that are changes of placement, and removals under the headings Additional authority and Special circumstances, above.

- The parent of a child with a disability may file a due process complaint (see above) to request a due process hearing if he or she disagrees with:
  - Any decision regarding placement made under these discipline provisions; or
  - The manifestation determination described above.
- Charter School may file a due process complaint (see above) to request a due process hearing if it believes that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.

**J. Special Rules for Students with Intellectual Disability**

The disciplinary removal of a child with mental retardation attending a charter school for any amount of time is considered a change in placement and requires a NOREP/prior written notice (if the disciplinary event does not involve drugs, weapons and/or serious bodily injury). A removal from school is not a change in placement for a child who is identified with mental retardation when the disciplinary event involves weapons, drugs, and/or serious bodily injury.

According to certain assurances the Commonwealth entered into related to the PARC consent decree, a charter school may suspend on a limited basis a student with mental retardation who presents a danger to himself or others upon application and approval by the Bureau of Special Education and only to the extent that a student with a disability other than mental retardation could be suspended.

**K. Protections for Children Not Yet Eligible for Special Education and Related Services**

If a child has not been determined eligible for special education and related services and violates a code of student conduct, but Charter School had knowledge (as determined below) before the behavior that brought about the disciplinary action occurred, that the child was a child with a disability, then the child may assert any of the protections described in this notice.

1. Basis of knowledge for disciplinary matters

A charter school must be deemed to have knowledge that a child is a child with a disability if, before the behavior that brought about the disciplinary action occurred:

- The parent of the child expressed concern in writing that the child is in need of special education and related services to supervisory or administrative personnel, or a teacher of the child;
- The parent requested an evaluation related to eligibility for special education and related services under Part B of the IDEA; or
- The child's teacher, or other Charter School personnel expressed specific concerns about a pattern of behavior demonstrated by the child directly to Charter School's director of special education or to other supervisory personnel of the Charter School.

2. Exception

A charter school would not be deemed to have such knowledge if:

- The child's parent has not allowed an evaluation of the child or refused special education services; or
- The child has been evaluated and determined to not be a child with a disability under Part B of the IDEA.

3. Conditions that apply if there is no basis of knowledge

If prior to taking disciplinary measures against the child, a charter school does not have knowledge that a child is a child with a disability, as described above under the sub-headings Basis of knowledge for disciplinary matters and Exception, the child may be subjected to the disciplinary measures that are applied to children without disabilities who engaged in comparable behaviors.

However, if a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures, the evaluation must be conducted in an expedited manner.

Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services. If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by Charter School, and information provided by the parents, Charter School must provide special education and related services in accordance with Part B of the IDEA, including the disciplinary requirements described above.

4. Referral to and Action by Law Enforcement and Judicial Authorities

The state and federal regulations do not:

- Prohibit an agency from reporting a crime committed by a child with a disability to appropriate authorities; or
- Prevent State law enforcement and judicial authorities from exercising their responsibilities with regard to the application of Federal and State law to crimes committed by a child with a disability.

Subsequent to a referral to law enforcement, an updated functional behavior assessment and positive behavior support plan are required.

5. Transmittal of records

If a charter school reports a crime committed by a child with a disability, the charter school: must ensure that copies of the child's special education and disciplinary records are transmitted for consideration by the authorities to whom the agency reports the crime; and may transmit copies of the child's special education and disciplinary records only to the extent permitted by FERPA.

### **Student Withdrawal Policy**

EA will permit a parent or guardian of a student to withdraw the student from EA. A parent or guardian may also withdraw a student at any time prior to a decision to suspend or expel a student. If a student is withdrawn pending a suspension or expulsion, the student's readmission to EA will be subject to a disciplinary hearing before the Board of Trustees. The disciplinary procedures and standards shall be applied to the hearing.

### **XII. LIMITATIONS TO ENROLLMENT /CONTINUED ENROLLMENT**

A student may be dropped immediately from the rolls of the Academy if:

- a) His/her parent falsified any information on the application for enrollment regarding the student's school district of residence;
- b) The student may be excluded from school if that student is not in compliance school immunization requirements and the required proof thereof, unless the parent/student have provided, in writing, a valid objection for medical, religious or strong moral/ethical convictions similar to a religious belief.

### **XIII. EXECUTION AND INTERPRETATION OF THESE RULES**

The first line of execution and interpretation of these rules and regulations is always the individual classroom teacher or supervising adult. All adult employees and volunteers are charged with the carrying out of these rules. ***The School reserves the right, from an administrative standpoint, to override any teacher or staff decision.***

The Director of Student Development of the Academy is the primary disciplinarian and shall be responsible for the execution of the Code of Conduct, to include upholding school uniform requirements. Nevertheless, the Chief Executive Officer of the Academy is the final decision maker, and the sole final interpreter of the Code of Conduct and these rules and regulations on a day-to-day basis.

### Addendums to the Code of Conduct

**\*Esperanza Academy is committed to protecting the health and safety of the entire school community. Our school community includes staff, students, and our families. We will be following all guidelines regarding safety and public health as provided by the Center for Disease Control (CDC), Pennsylvania Department of Health, and the Pennsylvania Department of Education.**

**Due to the impact of COVID-19, the consequences of certain lower level code of conduct violations may be considered a higher level offense. As a result, the consequence of the violation may be escalated, if the behavior displayed by the student can be interpreted as posing a public health risk.**

The Code of Conduct shall apply to all virtual environments where students engage with teachers and other classmates. **In order to maintain a productive learning environment during video conferences, it is important to adhere to:**

- **School appropriate dress code**
- Use of appropriate and professional language
- Maintain distractions and background noise at a **minimum**
- It is expected that students use their school issued credentials at all times to participate in distance learning

\*It is understood that should students not adhere to guidelines delineated in the Code of Conduct concerning distance learning, teachers reserve the right to remove a student from their virtual classroom for disciplinary reasons.

#### **Uniform**

- **In order to enter the school building, students MUST wear a mask that cover their noses and mouth and their IDs/Lanyards must be visible at all times during the school day. Students will not be permitted in the school building without a mask to ensure the health and safety of students and staff. If your child is unable to adhere to the aforementioned guidelines regarding the use of a mask during school hours contact your building Director of Instruction.**
- **Students who come to school without a mask may be issued a disposable mask.**
